Artisanal, hand-crafted product is sustainable in many ways: the livelihood it offers artisans and crafts people, supports safe and decentralised production and brings the benefits of fair-trade to the maker, besides using recycled material to have minimal environmental impact.

There is something special about giving someone a handmade product. When you give a handmade gift, you are giving a piece of creativity and skill, making it truly personal and meaningful.

It is unique and one-of-a-kind, unlike mass-produced items that can be found everywhere. Handmade products are made in small batches, and each piece is not an exact replica - making it something truly special and exclusive. A wonderful way to show someone that you care for them and the environment.

Sunflower candle holders

Inspired by the delicate details of nature, the tripetal flower collection brings a summer breeze and a ray of golden sunshine, into the home. The candleholders can also double as wine-bottle holders to dress up an evening dinner table.

Facing page - Euphorbia collection, extending the floral theme to a simple twin petal flower. For a cheerful summer table full of style.
